SUMMARY

I lead UX for complex enterprise products, and I still design and ship. Senior UX Manager and Head of Design with 12+ years across product design, design ops, and design systems. Most recently I co-led 35+ designers, researchers, and writers at Appfire across BigPicture, 7pace, and AI workstreams — design ops, research ops, Figma standards, and AI-assisted workflows. Before that I was Head of Design at SoftwarePlant (acquired by Appfire), growing a team of 16+ and owning design-system standards for Atlassian Marketplace products.

Independently I shipped CostRadar.ai as a founder and AI design engineer: true net P&L for multi-channel e-commerce and an AI Profit Agent that only acts after Approve. I own strategy, craft, and delivery — from discovery and prototyping to shipping with engineers. Comfortable in ambiguous problem spaces, dense B2B interfaces, and building design practice that scales without killing speed. Open to Head of Design, Senior UX Manager, Staff Product Designer, Design Ops, Design Systems, and AI UX leadership. Fully remote within EU preferred. UoP preferred; B2B OK.

SELECTED HIGHLIGHTS

Scaled design leadership from hands-on IC to Head of Design and Senior UX Manager (SoftwarePlant → Appfire). Shipped CostRadar.ai solo (design + engineering). BigPicture outcomes: +47% OKR adoption, financial-module adoption 53% → 84% in 3 months, 58% fewer unclear reports. Strong in Atlassian-ecosystem SaaS, AI UX with human approval gates, and design systems teams actually use.

EXPERIENCE

Founder and AI Design Engineer

CostRadar.ai · 2025 – Present

Independent founder. Live profitability product for multi-channel e-commerce (costradar.ai). Designed and built solo: true net ledger, savings tracker, channel profitability views, and an AI Profit Agent that only changes things after Approve. End-to-end product design, UX writing, and front-end (React / Next.js / TypeScript).

Senior UX Manager

Appfire · 2023 – 2026

Co-led 35+ designers, researchers, and writers across BigPicture, 7pace, and AI workstreams. Design ops, Figma standards, research ops, and AI rollout. BigPicture outcomes: +47% OKR adoption, financial-module adoption 53% to 84% in 3 months, 58% fewer unclear reports. Partnered with product and engineering on roadmap, quality bars, critique culture, and hiring.

Head of Design

SoftwarePlant (acquired by Appfire) · 2019 – 2023

Grew a team of 16+ designers, researchers, and writers. Owned design-system standards for Atlassian Marketplace products and led craft integration after the Appfire acquisition. Set critique, research, and release-readiness across complex B2B SaaS modules (planning, OKRs, financials).

UX and UI Designer

SoftwarePlant (acquired by Appfire) · 2016 – 2019

Lead Product Designer on BigPicture (Atlassian Marketplace best-seller). Owned discovery, prototyping, and delivery on financials, OKRs, and Gantt planning for enterprise PPM. Close collaboration with PMs and engineers from framing to release.

Product Manager, UX Designer

TVP 3 · 2013 – 2016

Coordinated 16 teams on public-broadcaster web services: product strategy, UX, and stakeholder management for high-visibility public digital products.

UX Designer

TVP Parlament · 2011 – 2013

Co-led the launch of a new e-television channel from scratch — information architecture, UI, and go-live readiness.

EDUCATION

Bachelor's degree, Journalism and Social Communication

Warszawska Wyższa Szkoła Humanistyczna im. B. Prusa (now MODERNA) · Warsaw, Poland · 2008 – 2011

SKILLS

UX Leadership, People Management, Product Design, UX Strategy, Service Thinking, UX Research, Usability Testing, Design Ops, Research Ops, Design Systems, Design Tokens, Information Architecture, Interaction Design, Wireframing, Prototyping, Stakeholder Management, Cross-functional Collaboration, B2B SaaS, Enterprise Software, Atlassian Ecosystem, AI UX, Agentic UX, Human-in-the-loop AI, Design Engineering, Accessibility (WCAG), Mentoring, Hiring, Workshop Facilitation
